the price as for above Buds.

All Scions and Buds from Bearing Trees

Varieties Adapted to Oklahoma

We cut all buds from the Luke & Ringer 40-acre Pecan Grove, which was budded to the eight varieties mentioned in Price List during August, 1922, on Native Sprouts from previously cut over land on which Pecans grew. Systematic care and intensive cultivation has been given each year.

A very careful study of the varieties mentioned has been made, from every angle and for climatic conditions in Oklahoma and Texas, we know of none better or as good.

For commercial purposes, size, kernel, per cent, uniformity, flavor and good producers, we could not afford to make a change.

The last two named, Oklahoma and Williamson, are native to Oklahoma. The Mother Trees near Ardmore, and owing to their being acclimated, they should soon lead all others not native to Oklahoma.

All trees in our grove are tagged with Aluminum plates, in order to eliminate any possibility of sending out any "not true to name" buds.

The greatest care and cultivation has been given this Grove, for the purpose of producing the best possible growth, which means thrifty buds.

We are listed at A. & M. College of Oklahoma, as a State Demonstration Project, hence the name Demonstration Grove.

All orders with remittance, will be booked as received and filled in regular order as booked when buds are mature and ready.

Purchaser will be notified in advance of shipment, so as to be ready to place buds when they are received.

To orders for less than 100 of any variety, add 50 percent to List Price. However, no order will be filled for less than \$1.00.

We welcome any one interested in Pecan Culture, to visit Ardmore to see what we have and what you can do in the work.

—o—

We can supply you the

RINGER BUDDING KNIFE

At \$2.50 Post Paid

It is the only Pecan Budding Knife on the market having Double V-Shaped Blades.

The advantage of the V-Shaped Blades is that the Blades will track or cut at right angle to the stick.

—o—

We can supply you Waxed Cloth at 50c per yard, post paid.

Ten percent discount when order is for five or more yards.

All Correspondence should be addressed to
